

# Preparatory School Brochure

## *It's TIME to get Maths-Fit!*

### **WHAT WE OFFER:**

#### **LESSONS INCLUDED INTO THE ACADEMIC DAY (free of charge)**

During the academic day, the TIME staff works closely with the TVC staff to enhance the planning and methodology used to implement the curriculum. Pupils regularly visit the institute for the introduction, extension and consolidation of concepts, using creative and concrete methods.

#### **EXTRA-MATHS LESSONS**

After school, extra maths lessons are provided at very competitive rates (see Fees). These extra lessons fall within two categories:

##### ➤ **Maths-Fit Programme: Larger groups of up to 6 pupils.**

This is an online programme for pupils who are of average to above average ability, who want to improve or maintain their 'Maths-fitness' and general performance in Mathematics. The pupils are registered with Mathletics. This is an international online Maths program, aligned with the South African curriculum. The pupils make use of the tablets provided by the institute. They are also able to make use of the program to practise at home. The curriculum covered online is as per the concepts covered in the TVC Maths class. Mental maths workbooks and concrete manipulatives are also integrated into these lessons. In the senior preparatory, these groups also work through old assessment papers before test week.

##### ➤ **Intensive Programme: Small groups of up to 4 pupils**

These programmes are predominantly for pupils who require extra encouragement or pupils who are underperforming in Mathematics. Tutors work intensively with the pupils to revise and reinforce the curriculum of that grade, as presented by their TVC class teachers. All workbooks and resources (including old assessment papers) are provided by the institute. These pupils will also be registered with Mathletics, which they can make use of to revise and practise at home.

*These sessions are to commence on Monday the 29<sup>th</sup> January.*

## A commitment to working on Maths regularly ensures success.

### 2018 SCHEDULE:

MATHS-FIT PROGRAMME				
TIME	MONDAY	TUESDAY	WEDNESDAY	THURSDAY
13:00 - 13:50	Gr1	Gr1	Gr1
